Ahmed Soubhi

**AI AUTOMATION ENGINEER & FULL-
STACK DEVELOPER**
2020-2025

PHONE: +971 56 270 0521

EMAIL: AHMEDSOUBHI.2002@GMAIL.COM

Professional Summary

Recent Computer Engineering graduate with expertise in AI automations and workflows, embedded systems, IoT, and full-stack development. Proven in optimizing networks, building user-centric apps, and launching AI-driven solutions for business growth. Seeking to leverage technical skills in innovative tech environments.

This portfolio expands on my resume to showcase detailed project workflows, technical implementations, and measurable impacts. I've built scalable AI systems that automate marketing and operations, IoT devices for healthcare, and efficient web/mobile applications.

Skills

- Programming Languages: C++, Python, React JS, SQL, Node JS
- Databases: PostgreSQL, MongoDB
- AI & Automation Tools: n8n, Zapier, Go height level
- Hardware & Core Engineering: Embedded Systems, Linux, Computer Networking, Electronics

Expanded Details: Proficient in integrating AI models (e.g., GPT-4o via OpenAI APIs) with automation tools like n8n for workflow orchestration. Experienced in full-stack setups using React for front-end, Node.js for back-end, and databases like PostgreSQL for structured data or MongoDB for flexible schemas. Strong in embedded programming with C++ for hardware interfacing and Python for data processing in IoT projects.

Featured Professional Experience- Wasl Web AI Agency

AI Automation Package for Dental Clinics, Wasl Web AI Agency : AI Automation Package for Dental Clinics, Wasl Web AI Agency

Case Study Summary:

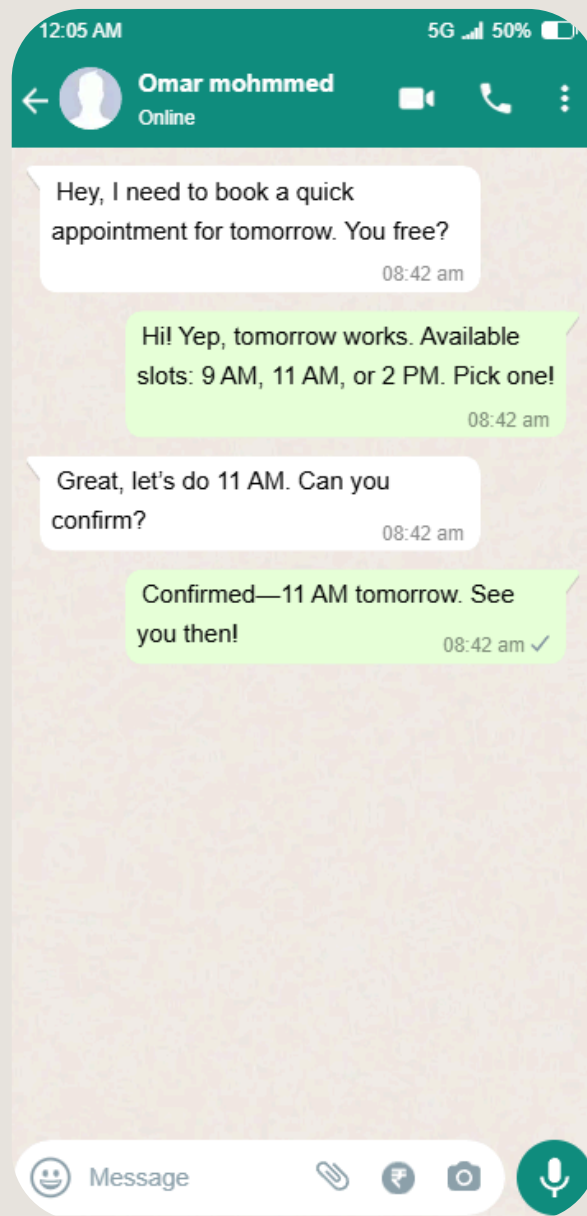

This project showcases my flagship "All-in-One" AI automation and marketing package, designed specifically for dental clinics in the UAE. This integrated solution provides a comprehensive digital front door for clinics, combining a 24/7 AI chatbot, an automated booking system, and a robust patient CRM. The package is engineered to solve the core challenges of patient acquisition and management. Its effectiveness is best demonstrated through the results achieved for a key client, Al Haneen Dental Clinic, who experienced a dramatic increase in lead conversion, operational efficiency, and a near-perfect online reputation.

The Challenge: Scaling Patient Operations in the Dental Industry:

Dental clinics throughout the UAE face common growth challenges. High patient volume leads to administrative bottlenecks, with staff spending hours on manual scheduling and answering repetitive questions. Inquiries outside of business hours are often missed, resulting in lost revenue. Furthermore, manually managing online reviews and maintaining a positive reputation is a constant, time-consuming effort.

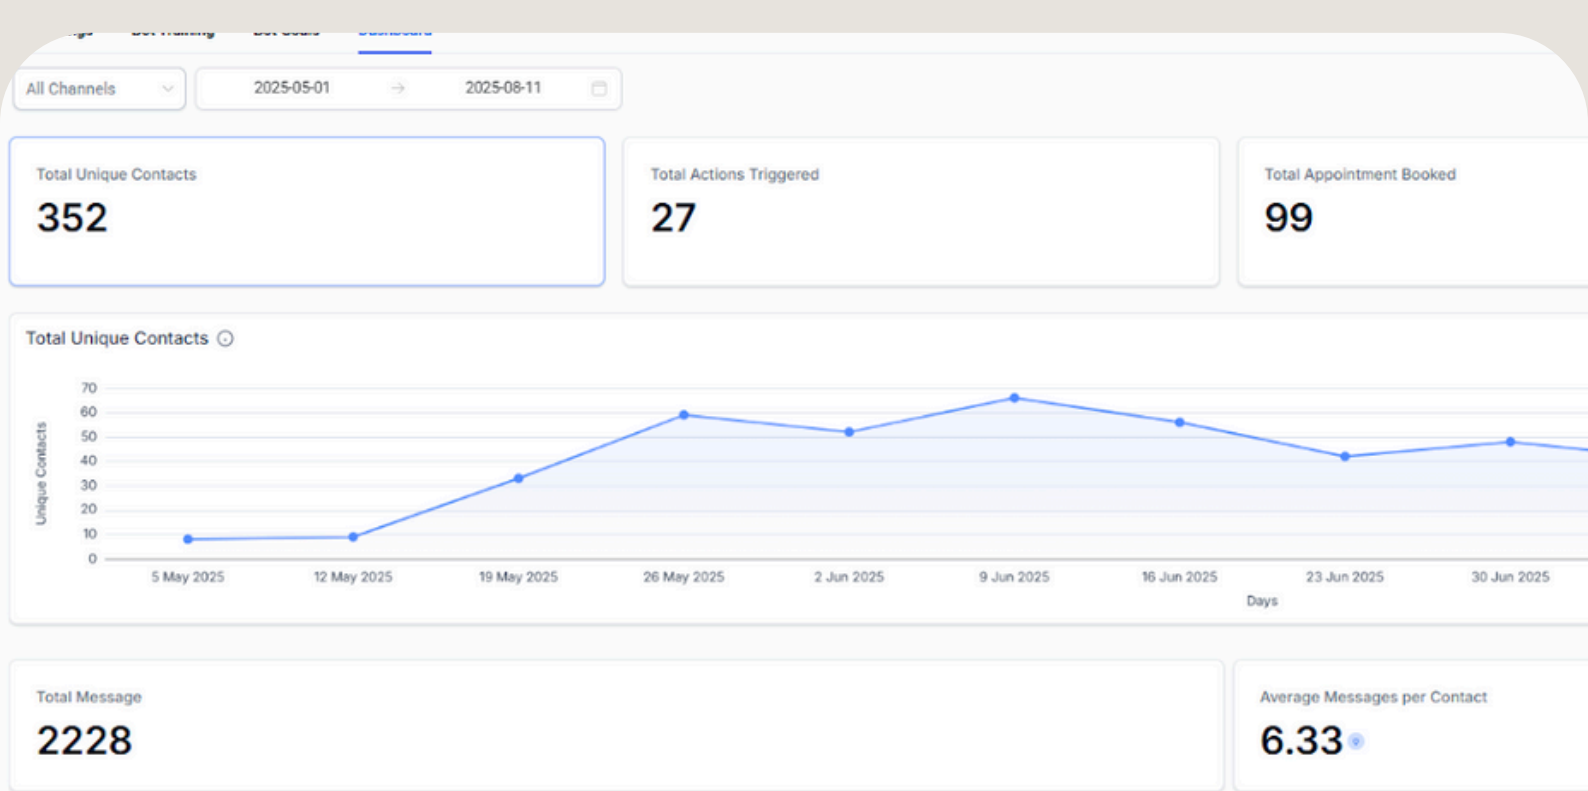

1. Seamless AI Chatbot with Unique WhatsApp Integration

- I deploy a sophisticated AI chatbot for my clients that operates 24/7. A key differentiator of my service is a unique partner integration that enables the AI to work on the clinic's main, established WhatsApp number. This is a critical feature that other providers lack, as it prevents patient confusion and maintains brand consistency, leading to much higher adoption and engagement.

2. Automated Appointment Booking & CRM

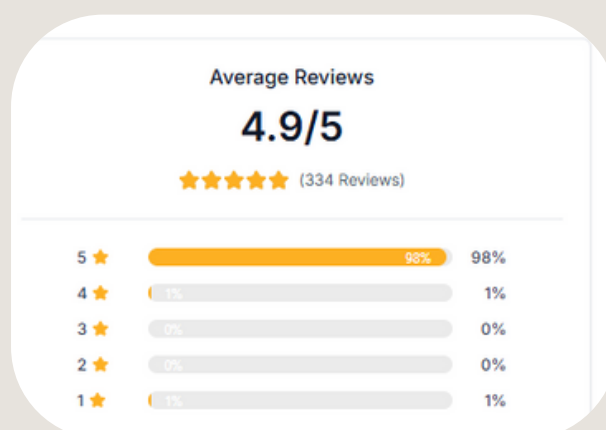

- The AI seamlessly guides patients through the booking process and integrates with a centralized patient CRM. This system automatically creates patient profiles, logs appointments, and sends confirmations and reminders. This level of automation is highly effective. For one client, Al Haneen Dental Clinic <https://alhaneendental.com/>, it directly reduced patient no-shows by 15%.

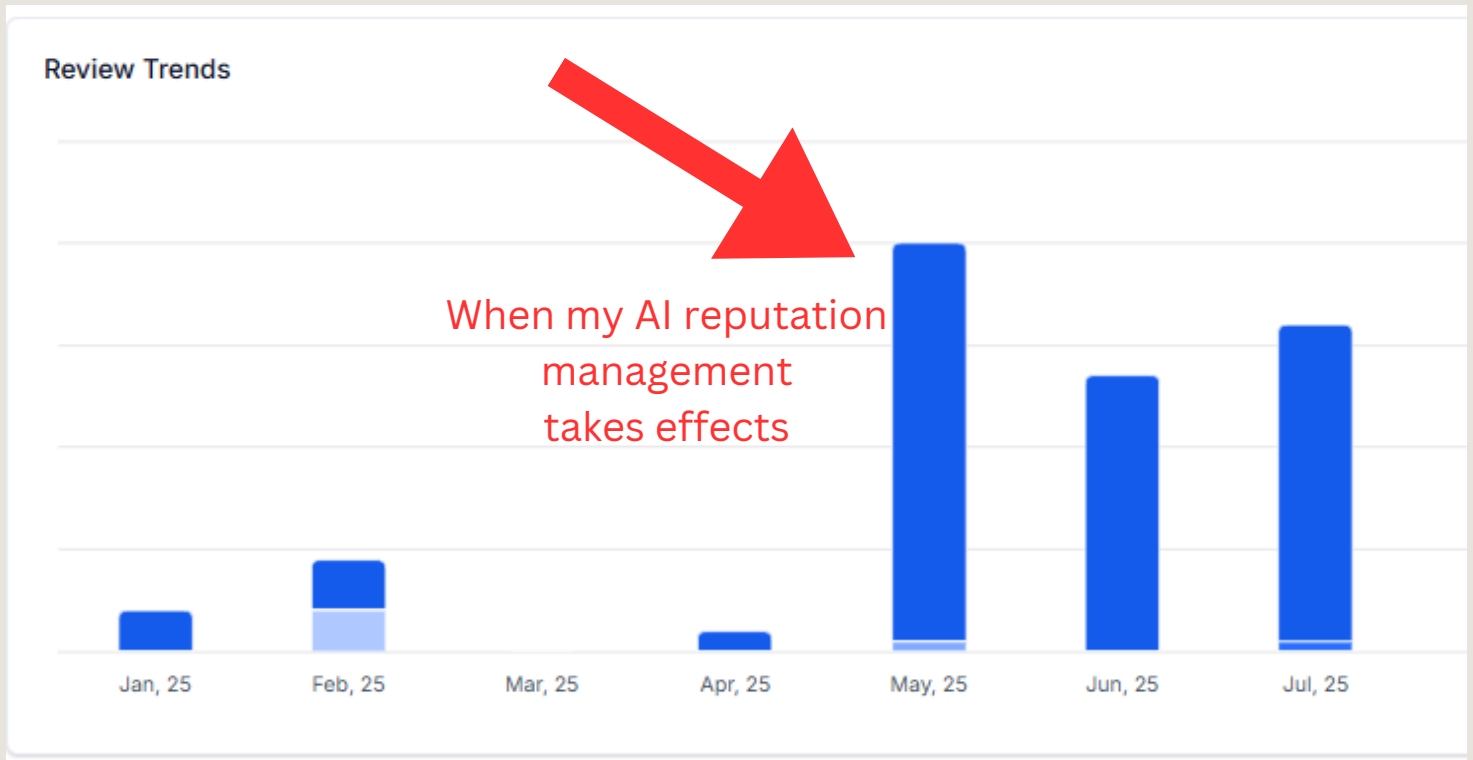

Dashboard showing appointments booked by the AI for a client, demonstrating tangible ROI.

3. Proactive AI Reputation Management

- The package includes an automated workflow to proactively manage a clinic's online presence. The system streamlines encouraging and responding to patient reviews. The results are transformative; for Al Haneen Dental Clinic <https://alhaneendental.com>, this system elevated their Google rating from 4.3 to a stellar 4.9 stars by managing over 150 new 5-star reviews

Case Study Result: Google Rating increase for Al Haneen Dental Clinic
<https://alhaneendental.com/> after implementing the reputation management module.

B2B Marketing & Lead Generation System: AI Marketing Automation Engineer, Wasl Web AI Agency

This project is an advanced, fully autonomous AI agent engineered in n8n to execute a complete B2B lead generation and personalized cold email outreach campaign. Triggered on a schedule, the agent identifies hiring companies on LinkedIn, enriches company data by scraping their websites, discovers key email contacts using a multi-layered verification process, and then crafts and logs highly personalized outreach emails using an AI language model. This system fully automates the top of the sales funnel, moving from raw data to qualified outreach without any manual intervention.

How It Works: A Detailed Breakdown

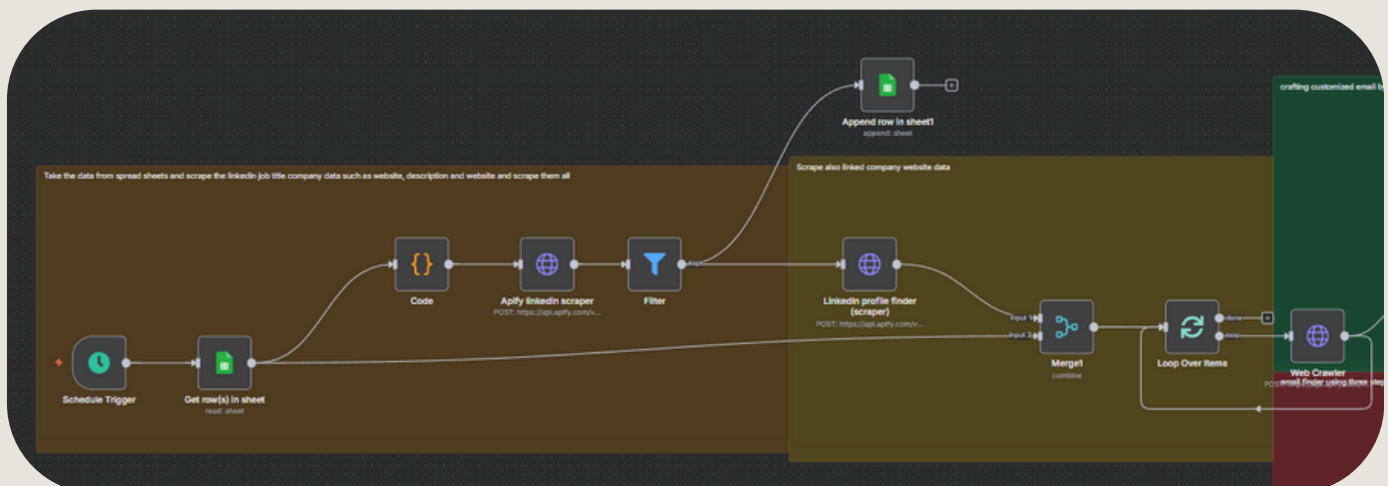

Phase 1: Automated Lead Sourcing & Data Extraction

I initiated the workflow by automating the identification of high-intent leads. The system activates on a set schedule, pulling a target list of LinkedIn job postings from a Google Sheet. For each lead, it executes a multi-step scraping process using Apify to extract critical company data, including the company name, description, and website URL, achieving a 95% data acquisition success rate.

Automated Lead Sourcing.

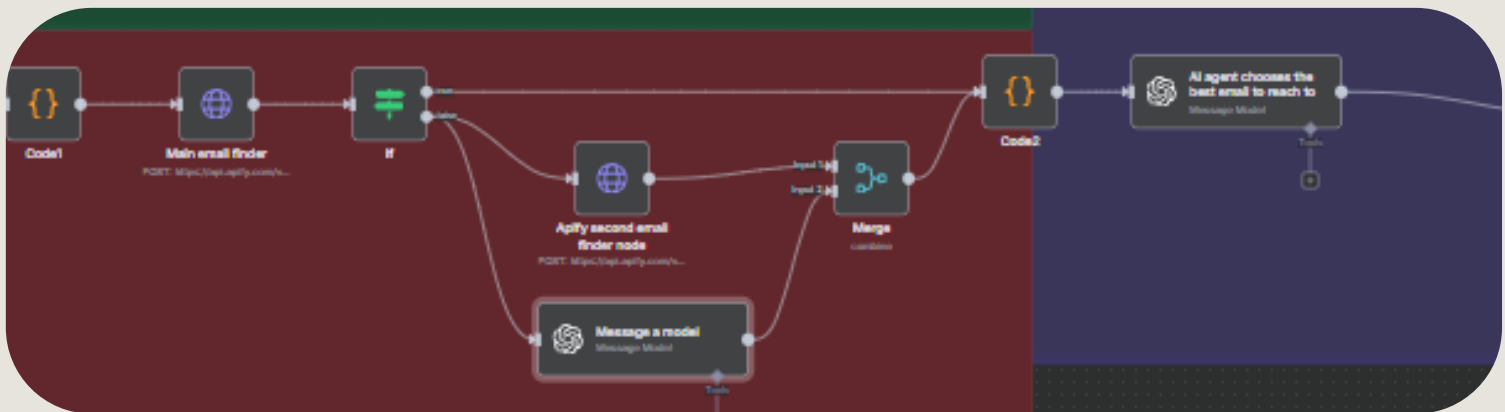

Phase 1: Sourcing.

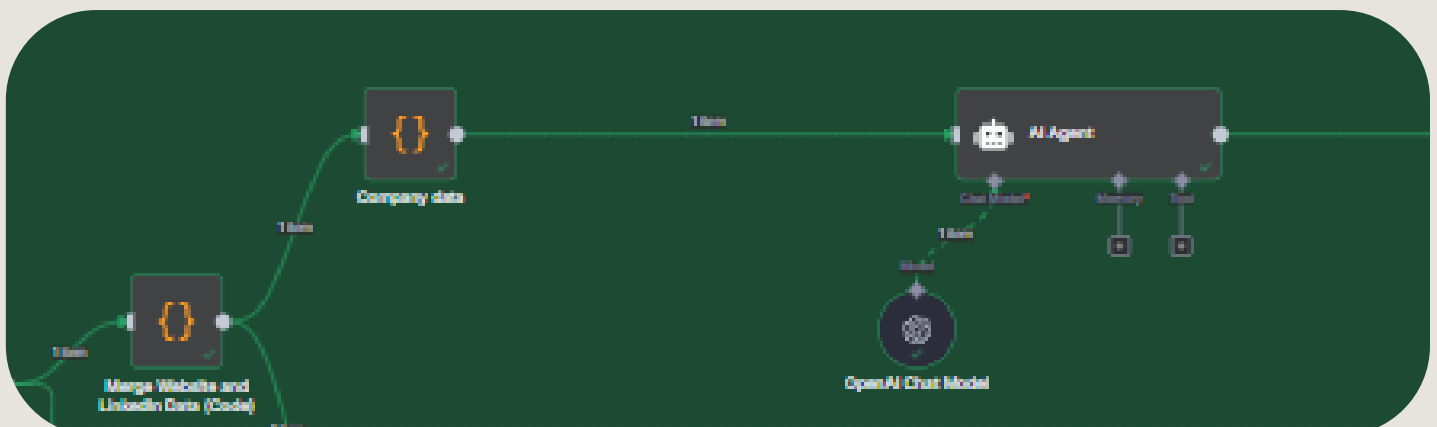

Phase 2: Intelligent Email Discovery & Verification

To maximize contact success, I engineered a resilient three-tiered email discovery system. The agent first attempts to find emails with a primary, high-speed scraper. If unsuccessful, it automatically triggers two fallback methods: a deep-web crawler and an AI model trained for email verification. This multi-layered approach increased the email find rate by 40% compared to a single-method approach and ensures a contact point is found for over 85% of leads.

Phase 3: AI-Powered Personalization at Scale

I leveraged a sophisticated AI agent (powered by GPT-4o) to transform raw data into hyper-personalized outreach. The system analyzes the scraped company description, job title, and website content to understand the company's growth signals and mission. It then dynamically generates a unique, compelling opening hook for each email, achieving a level of personalization that is impossible to replicate manually at scale. The agent then seamlessly inserts this hook into a pre-defined HTML email template.

ManpowerGroup Middle East	Front Desk Representative - ManpowerGroup Middle East	**Company Name:** ManpowerGroup Middle East **Relevant Job Posting:** Front Desk Representative - ManpowerGroup Middle East **LinkedIn Profile:** https://www.linkedin.com/company/manpowergroup-middleeast/ **Company Description:** ManpowerGroup™ (NYSE: MAN) is the world's workforce staffing and recruitment expert, creating innovative workforce solutions for more than 65 years. We connect more than 600,000 people to meaningful work across different skills and industries every day. Through our ManpowerGroup family of brands we help more than 400,000 clients in 80 countries and territories to resource, manage and develop talent. See how ManpowerGroup makes powering the future of work humanly possible: www.manpowergroup.ae Manpower is the global leader in Outsourcing and permanent recruitment workforce solutions. By leveraging our trusted brands, we have built a deeper talent pool to provide our clients access to the people they need, faster. Experis is the global leader in professional resourcing and project-based workforce solutions in IT, Finance and Accounting, Legal, Engineering and Healthcare, precisely delivering in-demand talent for mission-critical positions. ManpowerGroup Talent Solutions provides clients outsourcing services in human resources functions, primarily in the areas of large-scale recruiting and workforce-intensive initiatives that are outcome-based. This includes Managed Service Providers and Recruitment Process Outsourcing, where we are one of the largest providers of permanent and contingent recruitment in the world. Right Management is the global career and talent development expert. We improve time to value through our expertise in organizational effectiveness, career management and individual development.	**Scraped Website Content:** ManpowerGroup Middle East Outsourcing and Recruitment Solutions ManpowerGroup Middle East Recruitment UAE (https://image-assets.manpower.volcanic.cloud/api/v1/assets/images/77896c1cde169f462d77ed4cd081274a?fallback=true&format=&size=2000x600%23&version=30) Connecting Human Potential to The Power of Business. At ManpowerGroup we believe meaningful, sustainable employment has the power to change the world. Because when you combine talented people with innovative companies, you can build a brighter future for everyone. ManpowerGroup Middle East sets the standard for innovative workforce solutions. For over 15 years, we've been the trusted partner for employers and job seekers across the GCC region. Explore our services to find out how we can help your business find the talent it needs to succeed. **Our Services** (http://www.manpowergroup.ae/workforce-solutions) We Deliver Full-Spectrum Business Solutions and Services We offer workforce solutions and services for permanent and contingent candidate acquisition, ensuring a consistent experience for companies and candidates. Our agency services businesses in a variety of industries through its full spectrum of service offerings, from permanent recruitment, outsourcing and outplacement, to visa and payroll solutions.

After

AI-generated personalized sentence

Hello ManpowerGroup Middle East team,

I see ManpowerGroup Middle East is expanding its front-line presence in the GCC to connect more people with meaningful work. This aligns with your mission to connect human potential to the power of business and set the standard for innovative workforce solutions.

Noticing you're hiring for an Front Desk Representative - ManpowerGroup Middle East suggests you're scaling up operations. As companies expand, managing the influx of customer inquiries and scheduling is a common challenge we solve with AI.

Our AI solutions are designed specifically for this. We provide an intelligent system that:

- Engages customers 24/7 on WhatsApp and your website
- Books qualified appointments directly into your calendar
- Instantly answers frequently asked questions

For a company focused on operational efficiency, this is a direct way to scale your customer-facing operations.

If you have questions or are interested in seeing how this works, are you free for a quick chat next week?

Best, Ahmed AI Customer Solutions Agency

Phase 4: Finalization and Automated Logging

To complete the cycle, the agent consolidates all generated data, including the personalized email body and the various emails found. It then uses an AI model to select the single best email address for outreach from the available options. Finally, it appends all information into a master Google Sheet, providing a clean, organized record of all outreach activities and creating a reliable system for campaign tracking and follow-up.
